

# Kartikey Singh

Full Stack Developer

+91 8881413652 — [kkartikeysinghh@gmail.com](mailto:kkartikeysinghh@gmail.com) — [Github](#) — [LinkedIn](#)

## SUMMARY

- Full Stack Engineer with hands-on experience in building scalable web applications using the MERN (MongoDB, Express, React, Node.js). Proficient in architecting scalable MongoDB databases, optimizing frontend performance, developing RESTful APIs, and implementing WebRTC-powered real-time features.

## TECHNICAL SKILLS

- Frontend Development:** React, Next.js, Tailwind CSS, HTML5, Bootstrap
- Backend Development:** Node.js, Express.js, RESTful APIs, Socket.IO, WebRTC
- Languages:** JavaScript (ES6+), C++, SQL
- Databases & Cloud:** PostgreSQL, MongoDB, MySQL, Vercel
- Developer Tools:** Git, GitHub, Postman, VS Code

## PROFESSIONAL EXPERIENCE

- SharkDOM** Remote  
*Full Stack Developer Intern* March 2026 - May 2026
  - Full Stack Development:** Architected and delivered scalable software modules using React.js and Node.js, reducing page load times through enhanced component rendering and state management.
  - API Architecture:** Designed robust RESTful APIs to handle cross-functional data communication, reducing server response time by implementing middleware logic.
  - Collaboration & Reliability:** Collaborated with cross-functional teams and critical backend services, ensuring stable production deployments.
- OasisInfobyte** Remote  
*Software Developer Intern* Dec 2025 - Jan 2026
  - Frontend Development:** Developed and delivered 5+ responsive React.js interfaces, improving user engagement through reusable components and optimized cross-device compatibility.
  - Chatbot Engineering:** Built an interactive chatbot application using React, implementing efficient state management and dynamic rendering for seamless user interactions.
  - API Integration:** Integrated 10+ RESTful API endpoints and client-side routing, enabling reliable data communication across multiple application modules.
  - Code Optimization:** Refactored frontend architecture and reusable components, reducing code redundancy by **25%** while improving maintainability and scalability.

## TECHNICAL PROJECTS

- Real-Time Communication Platform** VirtuSync  
*Node.js, Express, PostgreSQL, Socket.IO, WebRTC* [Live Demo](#)
  - Low-Latency Architecture:** Engineered a video conferencing tool using WebRTC for peer-to-peer streaming, achieving **sub-200ms latency** for video transmission across distributed networks.
  - Scalable Signaling:** Implemented a custom signaling server using Socket.IO to handle concurrent room joins, supporting stable connections for multi-user meeting rooms.
  - Security Implementation:** Integrated JWT-based authentication and secure session management, preventing unauthorized access to private meeting streams.
- High-Performance E-Commerce Platform** ShopSphere  
*React.js, Tailwind CSS, SQL, Rest API, Git, VITE* [Live Demo](#)
  - Performance Engineering:** Developed a scalable e-commerce platform using React.js, Express.js, REST APIs, and SQLite, delivering a fast and seamless shopping experience.
  - Improved UX:** Built a responsive global cart system with optimistic UI updates, eliminating interface lag and reducing cart abandonment rates during checkout.
  - Modern Interface:** Designed a modular React architecture with reusable components and responsive layouts, improving maintainability and cross-device performance.

## EDUCATION

- I.E.T, Dr. Ram Manohar Lohia Avadh University, Ayodhya**  
*Bachelor of Technology - Information Technology* 2021 - 2025
- Kunwar Convent Sr. Sec. School, Ballia**  
*Intermediate - 12th* 2019 - 2021
- Gyan Kunj Sr. Sec. School, Ballia**  
*High School - 10th* 2017 - 2019

## CERTIFICATIONS

- Completed Full Stack Web Development Course by Hitesh Choudhary (ChaiCode.com) on Udemy.
